

NAAC CONTRACTING CHARGES 2013/14

These prices are the middle price surveyed from NAAC members but the actual price may vary considerably between regions, soil types, distance travelled, size of contract undertaken, size and type of equipment used, amount of product applied etc. The NAAC is also aware that many contractors are now making individual arrangements with their customers regarding diesel (eg separate fuel surcharge, fuel used on-farm etc). The prices below do not reflect this market trend and such agreements may make a significant difference to contracting charges. **PRICES ARE BASED ON RED DIESEL AT 70ppl**
Please note these prices are ONLY a guide.
