

# The Assured Land-Based Contractor Scheme

## INFORMATION

The Assured Land-Based Contractor (ALBC) Scheme was developed to promote professionalism amongst land-based contractors and will encourage high levels of working practices within the industry, ensuring that customers get the level of service that they require. The scheme is independently audited by NSF Agriculture.

## SCHEME STRUCTURE

In modular format the ALBC scheme consists of a generic standard which applies to ALL Contractors and includes standards for a professional business, for example:

- Health and safety
- Vehicle and equipment maintenance
- Personnel etc

Further to the generic standard, contractors will be audited against their specific sector standard(s)

- Mobile Seed Processing
- Mobile Feed Mixing and Processing
- Agricultural Waste Collection
- Agricultural Operations including standards for crop spraying, and spreading materials to Agricultural land
- CIPC Application.

## BENEFITS

- Being a member of the Assured Land-Based Contractor scheme will prove your safe and professional working practices
- It offers your customers genuine assurance about your contracting activities, offering traceability independently audited by NSF Agriculture
- You will be able to promote to your customers that they are getting the service which meets industry assurance standards such as ACCS and FABBL

## PROMOTION

- Your business will be promoted via the NAAC Assured Contractor section at [www.naac.co.uk](http://www.naac.co.uk) (NAAC Members only)
- Use of the Assured Land-Based Contractor logo on vehicles, stationary, letterheads etc.

For more information on the Assured Land-Based Contractor Scheme contact the NAAC office (see below).
